MOVING FORWARD WITH HOPE

A MESSAGE FROM OUR FOUNDERS

2021 was a year of recovery, stabilizing our work in Haiti and moving forward with some of our programs and outreaches. We were able to serve a record number of families and communities for Konbit Haiti this year as the pandemic crisis still loomed about. We are thankful for the continued safety of our staff and community through the growing problems in Haiti. We have been able to continue all programming thanks to people like YOU!

Some of our highlights include: raising money for 108 goats to be purchased for families in need(!), feeding over 300 kids each day through our summer and winter camps, and helping hundreds of people secure clean drinking water sources. We also were able to run our programs through and after the pandemic, which has been nothing short of a miracle from God!

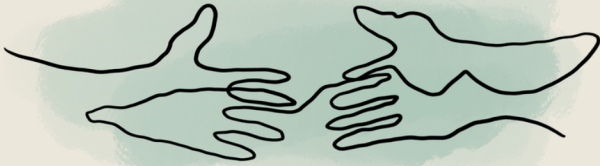

We also were able to host our leadership retreat in the Dominican Republic this year, combining our leadership partners in both areas we serve. It gave a much needed reprieve to our Haitian staff as they were cared for and poured into.

Our Haitian Occasion brought in enough money to help with multiple weeks of summer camp- and we remain so thankful for all of our monthly and annual partners who give so sacrificially to the mission of Konbit Haiti!

We are thrilled to look ahead into 2022 and see real change happening in the “mustard seeds” being planted in Haiti. Thank you for planting with us!
